
A
glomeruli (~50)
LNs
ORNs
MBONs (~35)
KCs (~2000)
APL
PNs
antennal lobe
mushroom body
B
Spearman ρ=0.98
90% CI = [0.97, 0.99]
p=8.75×10-98
KC distance (uniform model, correlation distance)
ORN distance (observed, correlation distance)
C
correlation distance
observed
uniform model
hemibrain model
odor pairs
difference in correlation distance (observed – model)
uniform
hemibrain
0.1
Di
observed ORN
Dii
modeled KC (uniform)
modeled KC (hemibrain)
Diii
observed KC
correlation distance
