
A
menthol biosynthesis
(4S-limonene)
(+)-pulegone
(-)-menthone
(-)-menthol
Geranyl diphosphate
PP
monoterpene biosynthesis
β-myrcene
(-)-α-pinene
sabinene
eucalyptol
(3S)-linalool
nerolidol
geranial
geranate
β-myrcene degradation
Farnesyl diphosphate
PP
longifolene
(-)-β-caryophyllene
oleoresin sesquiterpene volatiles biosynthesis
Bi
menthol biosynthesis
monoterpene biosynthesis
β-myrcene degradation
oleoresin sesquiterpene volatiles biosynthesis
volatile ester biosynthesis during fruit ripening
