
A
modeled KC (hemidraw)
correlation distance
B
hemidraw model
Spearman rho=0.57
90% CI = [0.47, 0.67]
p=3.21e-13
KC correlation distance (modeled)
KC correlation distance (observed)
C
observed
uniform
hemibrain
hemidraw
KC response rate
(observed, uniform, hemibrain, hemidraw)
norm. ORN calcium (ΔF/F)
D
APL inhibition=0
APL inhibition=4.6
APL inhibition=27.7
no. (n) odors per cell
spk. threshold=134
spk. threshold=268
spk. threshold=402
response rate to each odor
cell fraction responding to n odors
μrate=0.442
μrate=0.171
μrate=0.026
μrate=0.183
μrate(obs)=0.093
μrate=0.015
μrate=0.058
μrate=0.040
μrate=0.008
odors
no. odors per cell
response rate
no. odors per cell (ref)
response rate (ref)
